🏆 Congressional Art Competition, 2nd Place

★ Scholastic Art Award, Honorable Mention

WORK EXPERIENCE

TelyRx

Mar 2025 – May 2025 | Remote (USA)

Senior UI/UX Designer

As the sole UI/UX designer at a fast-growing telehealth company, led the full website redesign and mobile app UI/UX — building a modern, intuitive digital experience that minimizes friction for users accessing healthcare services.

Worked closely with the marketing team to art direct promotional and commercial materials integrated into the main site, creating a seamless visual pipeline from social media to web. Designed and updated multiple backend UIs concurrently — including prescriber portals, patient portals, and pet product pages — within the constraints of Magento LUMA's existing architecture and tight deadlines.

Contract concluded upon project completion. Proud of what the team accomplished, and genuinely happy to see the company's significant growth during my tenure.

UI/UX Figma Web Redesign Magento Luma Art Direction

Freelance

Feb 2022 – Present | USA · Japan · China

Illustrator / Graphic Designer

Handled a wide range of creative work including book cover design, esports team social media visuals, landscape art, and photography. Built a diverse design sensibility through work spanning the US, Japan, and China, while also mentoring the next generation of designers.

Feb 2021 – Jul 2021 | Remote (California)

Environment Concept Artist

★ Activision Treyarch (Microsoft) Call of Duty: Cold War Call of Duty: Vanguard Apex Legends (EA)

Worked directly with production designers at Activision Treyarch (now under Microsoft) to lead visual development for the Call of Duty: Cold War zombie map. Provided original reference designs that served as the team's production standard, producing background concept art at volume. Designed props and park machines for Call of Duty: Vanguard, and created emote and promotional art for Apex Legends (EA).
